

# SPI Summary

SPI values are calculated using the most current precipitation data available, including that considered "provisional" or "preliminary" by the Midwest Regional Climate Center.

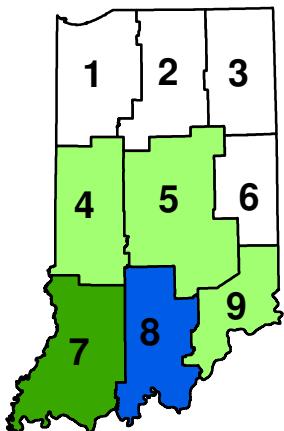

**1-month SPI Index - Sep. 2009**

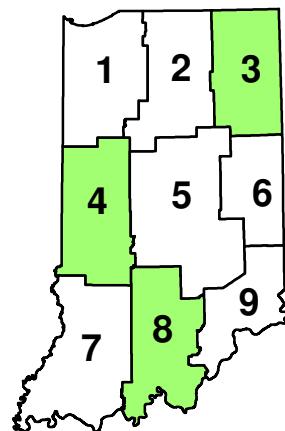

**3-month SPI Index - Sep. 2009**

**6-month SPI Index - Sep. 2009**

**12-month SPI Index - Sep. 2009**

## Key

- █ +2.00 and above (extremely wet)
- █ +1.50 to +1.99 (very wet)
- █ +1.00 to +1.49 (moderately wet)
- █ -0.99 to +0.99 (near normal)
- █ -1.00 to -1.49 (moderately dry)
- █ -1.50 to -1.99 (severely dry)
- █ -2.00 and less (extremely dry)

## SPI Values - Sep. 2009

Climatic Division	1-month	3-month	6-month	12-month
1	-1.57	-0.82	-0.41	0.50
2	-1.51	-0.61	-0.12	0.80
3	-1.24	-0.60	0.28	1.08
4	-1.11	-0.21	1.28	1.01
5	-0.42	-0.12	1.16	0.82
6	-0.22	-0.96	-0.17	-0.61
7	1.22	1.12	1.72	0.91
8	1.47	1.70	2.07	1.00
9	1.29	1.04	1.01	0.07
